### Important Notice

This is not a contract. Actual terms and conditions are detailed in the policy issued by Manulife upon final application approval. It contains important details concerning exclusions, conditions and limitations. Please review them carefully upon receipt.

### Effective Date of Coverage

Coverage is effective no earlier than the first day of the month following final approval of the application.

### Medically Underwritten

If the plan is medically underwritten or requires a medical questionnaire, you must disclose to us any medical condition, injury or illness that occurred or existed on or before the date of your application, regardless of whether you went to see a doctor about the condition or were given a diagnosis, or whether or not you believe that it is important. The premium charged and/or benefits offered could be subject to adjustment or modification of coverage or declined based on your or your family's medical background. This will be determined after an evaluation of the information provided on the enclosed medical questionnaire.

### Pre-Existing Conditions

The insurer will not pay any Emergency Travel Medical Care Benefits for any claims relating directly or indirectly to a pre-existing condition that is not stable within the nine-month period immediately preceding the date of departure from the insured's province/territory of residence. This means any condition, injury, illness, disease or related complication in relation to which:

- an insured has had new symptoms, or existing symptoms have become more frequent or more severe, or there has been a test result showing deterioration;
- a physician (or other medical professional) has prescribed or recommended a change in medication (the medication dosage or frequency has been reduced, increased or stopped and/or new medication has been prescribed) taken for that condition;
- a physician (or other medical professional) has prescribed or recommended a change in treatment for that condition; or
- there has been an admission to a hospital and/or results are awaited for further investigation for that condition during such nine-month period.

This exclusion does not apply to minor ailments or a change in medication where the active ingredient and strength remain the same (i.e., generic).

### For Quebec residents only:
